

## Opt-Out Notification for Military Recruiters 2017-2018 school year

Two federal laws require the school district to provide military recruiters, upon request, the name, address and telephone number of each secondary school student unless the student or student's parent has advised the district that this information is not to be disclosed. In order to have your directory information withheld, please note the following:

A request to withhold directory information must be in writing. You may use this form or appropriate forms from other sources. A request may also be hand-written.

This request will apply only to the release of directory information to military recruiters.

Requests to suppress directory information used for other purposes (such as student publications, colleges and universities, class rings, and yearbooks) are not covered by this notification. Such requests must be filed directly with the school.

Requests for suppression of directory information are for one year, and must be renewed annually.

Both parents and students may sign this form. The parent signature must be on requests for students who are under the age of 18. For students who are 18 years of age or older, the student must sign the request.

Written requests to be excluded from directory lists provided to military recruiters must be completed and returned to the school by **September 20, 2017**.

I hereby request USD 259 not release directory information to military recruiters for this student:
