

AUDIO/VIDEO PRODUCTION FUNDAMENTALS

Are you interested in learning how to take and edit video? Do you have an interest in working in the telecommunications industry? This class will give you a basic understanding of producing video including video production and the pre- and post-production process, as well as using video equipment and editing video using special software. The class is open to all grades and you need to have taken either Computer Graphics or Animation before enrolling in this class.

DIGITAL VIDEO PRODUCTION

This upper-level video class will allow you to apply the technical skills you learned in Audio/Video class to produce multi-media projects. The students in this class will schedule production and work as a team to create school-based projects, as well as other projects. Students in this class must be creative and be able to work independently. You must have taken Audio/Video class to be eligible for this class. Students will be selected based on grades, attendance, and maturity.
