

Wilbur Middle School

6th Grade Team White

Volume 1, Issue 1

September 2019

Math—Ms. Johnson

Welcome to Carnegie Learning- we have just wrapped up Topic 1, building on our existing knowledge of area and properties of operations. Students should continue their assigned work online using Mathia to reinforce our learning. Upcoming topics will highlight our grade level standard of division of fractions by fractions and making connections to rational numbers. Students should review operational procedures of multiplication, division, operations with decimals and fractions. Attention to this at home is necessary to build on previous skills!

~Ms. Johnson

Science News—Mrs. Mora

We are off to a fun start in Science, and it should only get better. We have recently covered many procedures and lab safety rules. We will be finishing up metrics soon and from there moving on to forces and motion. Forces and motion is basic physics and we look forward to doing some fun labs. Thank you for all the box tops you have been sending in.

~ Mrs. Mora

Why science teachers
should not be given
playground duty.

Social Studies—Mr. Griffin

The month of September is here. During this month we will cover the Mesopotamia unit. This unit will consist of vocabulary development, completing a map, utilizing different strategies to learn about the culture, government, economics, history, and geography of Mesopotamia. There will be some work that comes home and they will need to use the textbook checked out to them to complete. Towards the end of September we will be doing an in class essay about the laws of Mesopotamia. This will be done all in class so it is vitally important that each student is here every day. Please keep checking Parent Vue for grades, attendance and any communication from the school to you.

~Mr. Griffin

Language Arts News —Ms. Speer

Parent-Teacher
Conferences

Save the Date!

September 24th 1:45-7pm

And

September 26th 1:45-6:30pm

Early Release at 12:00 both days

Parent Teacher Conferences are drop in, you can meet with all or some of your students teachers. We look forward meeting with you

Dear Family,

Welcome back to school! In our first unit, students will investigate some of the challenges and triumphs of growing up, considering the possibilities both good and bad that lie ahead of them. Students will read a variety of texts and view media as they discuss the essential question for the unit. We will work as a class, in small groups, and independently to help students answer the essential question: what are some of the challenges and triumphs of growing up? Please help foster opportunities for discussions on this particular topic at home.

Thank you,

Ms. Speer 😊

Wilbur Goal: 6 books read by the end of the 1st quarter with a celebration for those reaching goal.
