***At home usage, you must use the https:// portion of the web address -   https://portal.usd259.net

Tips for home usage:

- For best results, allow for at least 15 to 20 minute sessions.

- Encourage completion of every lesson that is started. Mistakes are OK. Your child should not shy away from incorrect answers as the program will find the right lesson to build understanding in mathematics.

- Your child should use the tools on the screen. Please do not provide your child with paper/pencil or a calculator. The program is specifically designed to develop thinking and mental math skills.

- We know it can be difficult, but please resist the urge to help with answers so your child doesn't move ahead faster than he or she is ready. DreamBox will adjust and support your child with additional directions, tips, direct instruction and change the lesson for them, if needed.
