

Good evening WPS parents,

Thank you to so many of you who picked up packets today, accessed continuous learning information online, and shared your feedback with us about how things went today. We know there are several sites that had long lines, and we understand your frustration and your concern for safety! We are making changes in our process in order to level distribution out for the remainder of this week.

Here is what you need to know for the remainder of THIS week (March 31-April 3):

- All district middle schools and K8 schools will have expanded packet distribution hours for the remainder of this week.
- Parents will be able to pick up packets for PRE-K, ELEMENTARY, MIDDLE and/or HIGH SCHOOL from 9 to 11am and from 1 to 2 pm. Packets will be available outside of each building, and principals will monitor packet distribution.
- **We are distributing the same Week 1 packet each day this week. If you have already picked up your packet, you do not need to pick up a new one this week.**
- All district high schools, including Chester Lewis, will have the same expanded packet distribution hours. HIGH SCHOOLS WILL ONLY HAVE HIGH SCHOOL PACKETS.
- If you have downloaded the packet from our continuous learning web site (www.usd259.org/WPSlearn) you do not need to pick up a printed packet. The materials are the same.
- The web site has additional online learning resources to begin re-engaging students in learning opportunities. Your student may have been using these online resources in class, so they would be familiar with the programs already. If these are new to your student, log-in instructions are provided.
- We will have a new packet available for students each week through the end of the school year.

If you have additional questions about packet distribution or online learning opportunities, please call our continuous learning hotline at (316) 973-4443 or email at homework@usd259.net.

Respectfully,

Tiffinie Irving
Deputy Superintendent
