

Start out by going to wsutech.nepris.com or:

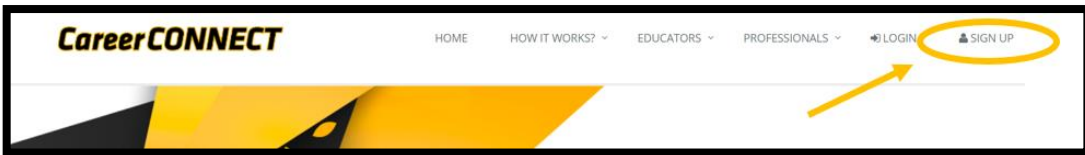

1. Go to www.wsutech.edu:
2. Select the WORKFORCE tab.

3. Select the CareerCONNECT option from the dropdown:

4. Select the SIGN UP tab on the upper right side of the screen:

5. Follow the instructions to create a new account. Our best recommendation is for a parent/guardian to set up their account, and help your students navigate the platform under your guidance. Students over the age of 13 *can* sign up for their own account, which will allow them to navigate the well-stocked Nepris Library, but *will still need a parent* to authorize their participation in Live Industry Chats.

A screenshot of the "Sign up for a new account" form. At the top, there is a "Back" link. Below it, the text says "Sign up for a new account" and "Already Signed Up? Click Sign In to your account." There are two login options: "Wichita Public School login below" with a "Login with District Credentials" button, and "WSU Tech users login below" with a "Login with WSU Tech Credentials" button. Below these is the text "or sign up for account below using email". There are three input fields: "First Name *", "Last Name *", and "Email Address *". A large yellow arrow points down from the "or sign up for account below using email" text to the input fields.

6. Fill in all the requested information:

CareerCONNECT

or sign up for account below using your email

First Name *

8. One of most engaging aspects of using Nepris/CareerCONNECT is the ability to tune in to Live interactive Industry Chats led by Educators and Professionals from across the country. Each session presents a brief overview and includes the scheduled time when it will be live, as well as showcasing the target grade audience.

9. Clicking the 'LEARN MORE' option on the overview page will bring you to the home page of that Industry Chat. From there you have the option to register for the chat, re-examine time, length, and grade level, as well as an option to share this information with your friends on social media!
