

## Parents/Guardians of Hyde Elementary—we need your opinion!

Our school is committed to providing a safe and encouraging place for your child. You can help us continue to make improvements to our school by completing a short online survey.

Students in grades 3–5 and all staff at school and 3-12 graders and all parents in our district are participating in the Safe & Civil Schools Climate & Safety Survey. We want to know what *you* think, too. All responses are anonymous. The resulting data will allow us to see if the three groups—parents/guardians, students, and staff—agree or disagree about important issues. We will be able to identify what we are doing well and what we need to work on, such as safety in a particular location of the school, students' understanding of the expectations for behavior, or communication with families.

### It's quick and easy!

- The survey should take less than 10 minutes to complete.
- **It's available online, 24 hours a day for two weeks—October 11-22.**
- You can complete it on any computer with Internet access—at home, work, the public library, or our school during Student Led Conferences. We will have computers available in the main hallway. (Cellular connections do not work well, but tablets and phones with Wi-Fi will work.)
- Just one parent or guardian from each household should take it.
- You can choose to read the survey in English or Spanish.
- Examples of questions are:
  - Are staff members supportive of students?
  - Are families informed about the rules and expectations for student behavior?
  - Are student cliques a problem at this school?
