Parents as Teachers (PAT) is an international early childhood parent education and family support program. PAT is voluntary, and free of charge to families living within the Wichita Public Schools, USD 259, boundaries.

**Personalized visits:**
Usually conducted in your home, a Parent Educator will share age-appropriate child and academic development and parenting information.

**Group Connections:**
An informal hour with a Parent Educator in a safe and educational environment to encourage children to develop a wide range of age appropriate skills.

**Screening:**
Assess your child’s overall development, including health, hearing and vision, conducted by a PAT Parent Educator.

**Resource Network:**
Resource Network that links your family to other community resources if needed.

Wichita is very fortunate to have high qualified staff of Parent Educators to serve the families in the USD 259 Wichita Public School District. Parent Educators help parents understand the critical importance of children’s early years and suggest ways in which parents can be their child’s first and most influential teacher.
