THE BUDGET DEPARTMENT

Wildly Important Goal: Align the District’s financial resources to support student success

The Budget Department works diligently to support student success by aligning and measuring the financial resources that are allocated district wide. We support a wide variety of tasks around the budget cycle, and are prepared to help you make informed and wise decisions about your program or school budget. We utilize data driven decision making to encourage smart and equitable spending. While we spend a majority of our time building, monitoring, and forecasting the District’s budget, our office is here to support your financial services’ needs.

OUR SUPPORT

Feel free to contact me or your assigned budget analyst at any time:

- FTE Requests/Changes
- Vacant Position Information
- Budget Change/Increase/Reduction Requests
- Determining Appropriate Funding
- Budget Tracker and PPA Support
- Planning for subs/tutors/additional programs
- Financial Reporting & Information Requests
- Data Analytics

Our team has over 60 years of experience in Wichita Public Schools, and we are ready to answer any question you have that may relate to finances.

ABOUT ME

I am new to Wichita Public Schools for the 2019-2020 school year. I come to WPS with a private industry accounting background with an emphasis in the manufacturing and natural gas sectors. My specialties include streamlining processes and data optimization. I want to build reports that any end-user can utilize.

I look forward to working with some many different groups across WPS. I take pride in joining a great organization that puts our children’s education first.
