Why I

Chose the Diploma Pathway...

I desired a more competitive edge for my plans after high school.

I desired to prioritize my academics over my extracurriculars.

I desired a particular course to fit my schedule.

I desired a path to fit me, rather than me fitting a path.

I desired to complete the EE (extended essay).

I desired a challenge in my academics.

I desired the feeling of fulfillment when committing to and completing an ambition.

I desired the full challenge of the IB program.
