- **Principal's Report – Cindy Graves**

Strategic Plan

We have 4 district wide long term goals increasing graduation rate, increasing 3rd grade reading proficiency, increasing college credits, making school safe places for students and families. We have direct impact on 3rd grade reading proficiency and schools viewed as safe places. (Handout also has district mission and vision.)

All elementary schools in Wichita are now AVID schools. Advancement Via Individual Determination. The focus of the program is to help make students college and career ready. Staff are all learning about the program. Teachers are attending trainings and bringing trainings back to buildings.

78 families filled out Safe and Civil Schools survey. Thank you if you took the time to do this. This data will help identify areas of success and areas where we need to work on structures. Families all had the opportunity to take the survey, students grades 3-5 took the survey, and all staff were given the survey as well.

On the district website, you can choose the parents and students tab and you can find current covid protocols and how many students and staff are currently quarantined.

Thank you for attending conferences! It was great to have families in the building to discuss student successes and student goals.

We are currently meeting to get some schoolwide events scheduled for the spring that align with our magnet theme. Schoolwide events are much loved and were missed incredibly. Magnet applications are now open for next school year. January 20th tentative date for magnet showcase, which will hopefully be in-person. Siblings not currently attending will need to apply. They will get priority.

Board of Ed elections Nov. 2nd. You can vote for all open district spots.
