

# MULTIPLICATION WAR

1. Remove the Jacks, Kings and Queens from a regular deck of cards. Leave the Aces, they are worth 1.
2. Shuffle.
3. Players place cards face down in a pile.
4. At the count of three, both players flip over their first card.
5. The first person to say the product of the 2 cards receives both cards and puts them in a separate pile.
6. If both players say the answer at the same time, the cards are put in the middle of the table.
7. The next player to win the "flip" gets the cards in the middle of the table in addition to the cards just played.
8. The winner is the person with the most cards at the end of play.

## Variation-

At the count of three, both players flip over two cards each. Each player multiplies their two cards together. Whoever has the highest product keeps all four cards.
